

**AP/M Permaform** offers a complete line of manhole rehabilitation products including cementitious mortars, epoxies, grouts and sealants. [www.permaform.net](http://www.permaform.net)

**BasinPack** is a customized pre-packaged fiberglass lift station - pump, panel, and basin - to fit your specifications. With BasinPack, you get a completely customized lift station at one competitive price. [www.basinpack.com](http://www.basinpack.com)

**Bio-Microbics** manufactures wastewater & storm water treatment systems for residential, commercial, high strength waste and community applications and uses the patented FAST technology for cost effective and reliable treatment solutions. [www.biomicrobics.com](http://www.biomicrobics.com)

**CentriPipe** offers products to rehabilitate CMP, brick, clay and concrete pipe. The new pipe is 100% structural, waterproof and sealed from end to end. The lining process is appropriate for storm sewers, sanitary sewers and DOT structures. [www.centripipe.com](http://www.centripipe.com)

**Champion Pump Company, Inc.** provides pumps for the septic, waterproofing, industrial, and maintenance markets. [www.championpump.com](http://www.championpump.com)

**ConmicShield®** is a liquid additive for effective long term prevention of bacterial corrosion of concrete in highly corrosive (MIC) sanitary sewer environments. wastewater applications. [www.conshield.com](http://www.conshield.com)

**Crystal-X** is a liquid concrete additive designed to make new cementitious installations permanently watertight. [www.conshield.com](http://www.conshield.com)

**Flomatic** manufactures a diversified line of water and waste water valves - check valves, plug valves, butterfly valves, control valves and related accessories for the commercial, water well and municipal markets. [www.flomatic.com](http://www.flomatic.com)

**Flying W Plastics** manufactures a complete range of plastic products including polyethylene pipes for water, gas, oil, sewer, geothermal, and conduit applications. [www.flyingwplastics.com](http://www.flyingwplastics.com)

**FPS** manufactures a complete line of submersible pumps - sewage, solids handling and grinders including PowerSewer, a prepackaged grinder station for low pressure sewer (LPS) applications. FPS also has a complete offering of booster pumps including vertical multistate and centrifugal pumps. [www.franklinengineered.com](http://www.franklinengineered.com)

**Genova** is one of the largest manufacturers of pipe and fittings in the United States. From the well or water line to the sewer or septic system, Genova offers plastic, steel, brass and copper products for the whole house. [www.genovaproducts.com](http://www.genovaproducts.com)

**Homa** manufactures a versatile, full line offering of municipal wastewater pumps featuring German engineering, air-filled motors and 2-650 horsepower. [www.homapump.com](http://www.homapump.com)

**Infiltrator** offers a full line of septic products - leachfield chambers, ATL (sand lined systems), wastewater treatment systems, septic/dosing tanks and STEP systems. [www.infiltratorwater.com](http://www.infiltratorwater.com)

**Little Giant** specializes in the water transfer market with products including wastewater, sump, sewage, effluent, dewatering, oil sensing, condensate, magnetic drive and utility pumps, as well as, outdoor living products. [www.littlegiant.com](http://www.littlegiant.com)

**Orenco** is the premier manufacturer of municipal wastewater collection and treatment systems for decentralized systems. It also offers a full line of large custom control panels. [www.orenco.com](http://www.orenco.com)

**Pioneer Pump** offers a full line of centrifugal pumps, permanent engine driven backup pumps and portable or skid mounted bypass pumps. [www.pioneerpump.com](http://www.pioneerpump.com)

**Polylok** manufactures a complete line of injection molded plastic products for septic systems, precast concrete, and drainage applications. [www.polylok.com](http://www.polylok.com)

**SPI** features a complete line of float switches, alarms, control panels and lift station accessories. [www.septicproducts.com](http://www.septicproducts.com)

**Topp** manufactures a full line of fiberglass basins, prepackaged lift stations (with or without attached valve vaults) and accessories for the wastewater industry. Topp also provides all the accessories to complement its basin products. [www.toppindustries.com](http://www.toppindustries.com)

**Tsurumi Pump** is a leading manufacturer of a complete range of products including submersible pumps, generators and process equipment. [www.tsurumipump.com](http://www.tsurumipump.com)

## **TREATMENT PACKAGES**

**Watermark Treatment Packages** are pre-engineered, pre-packaged wastewater treatment solutions for municipal, small community, commercial, and high strength applications. Ranging from 500 to 2 million gallons of wastewater per day, our simple designs provide robust, consistent treatment in a small footprint with low maintenance and low operational costs.
